

COURSE DESCRIPTION

Tui Na literally means pushing and grasping. Tui Na is a pillar of Traditional Asian Medicine and refers to a wide range of massage and hand manipulation techniques such as pushing, rolling, kneading, rubbing, scrubbing, grasping and pressing. Tui Na manipulations, including instruction in using mechanical devices, are designed to correct a variety of physical problems, internal conditions, gynecological conditions, pediatric conditions and traumatic injuries.

LEARNING OBJECTIVES

This course aims to teach students the theory and practice of Tui-Na. Each session will consist of a lecture that introduces and summarizes the topic, followed by supervised hands-on practice. I expect students to actively participate in class. Furthermore, you should try to understand the purpose and logic behind each technique as well as connections between techniques. You can not learn the material well by blunt memorization.

10% - Regular attendance & Class Practice

40% - Mid-Term Examination

50% - Final Examination

Methods of Presentation include: Lecture, Demonstration and Class Practice

GRADING SCALE: 100-90% A, 89-80% B, 79-70% C, 69% and below F

SPECIAL NOTES

There will be a midterm and final exam, both in class. The exams will cover both theoretical and practical aspects of the material.

Professionalism and Full and Prompt Attendance: To pass any course (separate from academic performance) all students must meet requirements for professionalism in coursework. Professionalism includes full and prompt attendance: Students who miss more than 2 class meetings in a 10-week course will earn an F in that course. Additionally, students who arrive more than 15 minutes to class or leave class before it ends will be marked tardy. Two tardies equal one absence. NOTE: Students who leave and return to class late from a break or leave during the class (especially if this is repeated) or who disrupt the class in other ways may be referred to the Academic Dean for professionalism.
